**DETAILED ACTION**

***Allowable Subject Matter***

**Claims 1-8** are allowed.

The following is an examiner's statement of reasons for allowance: **In view of the applicants reply filed 6/24/09 with regards to element "48" of Johnson et al (5,871,349), which was interpreted as being a first duct communicating with an outside through an upper portion of the regenerative thermal oxidizer while passing through the heat exchanging part, however as communicated by the applicant and illustrated on page 6 of the applicants reply, it appears that the duct "48" of Johnson is not a gas flow path provided by combination of the first duct and the cylindrical rotor nor the combination of the first duct and the rotor-shaped distribution unit as is required by the applicants claim limitation.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Drawings***

The replacement drawings for Figure 1 were received on 6/24/09. These drawings are approved
